

**A LEADING GLOBAL
PROVIDER FOR
SPECIALIST AND
INNOVATIVE ENERGY
SERVICES**

Mission

To provide specialist energy services to the highest international safety and quality standards for energy sectors globally, exceeding client expectations through innovation and sustainability.

Global Footprint

-  Calgary, Canada
-  Newfoundland, Canada
-  Houston, USA
-  Austin, USA
-  Baton Rouge, USA
-  Port Arthur, USA
-  Georgetown, Guyana
-  Limerick, Ireland
-  London, United Kingdom
-  Amsterdam, Netherlands
-  Paris, France
-  Stockholm, Sweden
-  Frankfurt, Germany
-  Barcelona, Spain
-  Cape Town, South Africa
-  Baku, Azerbaijan
-  Atyaru, Kazakhstan
-  Al Khobar, Saudi Arabia
-  Dubai, United Arab Emirates
-  Guangzhou, China
-  Seoul, South Korea
-  Manila, Philippines
-  New South Wales, Australia

19 Countries of Operation **136** Global Facilities Served **286** Projects Completed **10,000+** Global Resources Deployed

Culturally experienced leadership with diverse project delivery resource pool

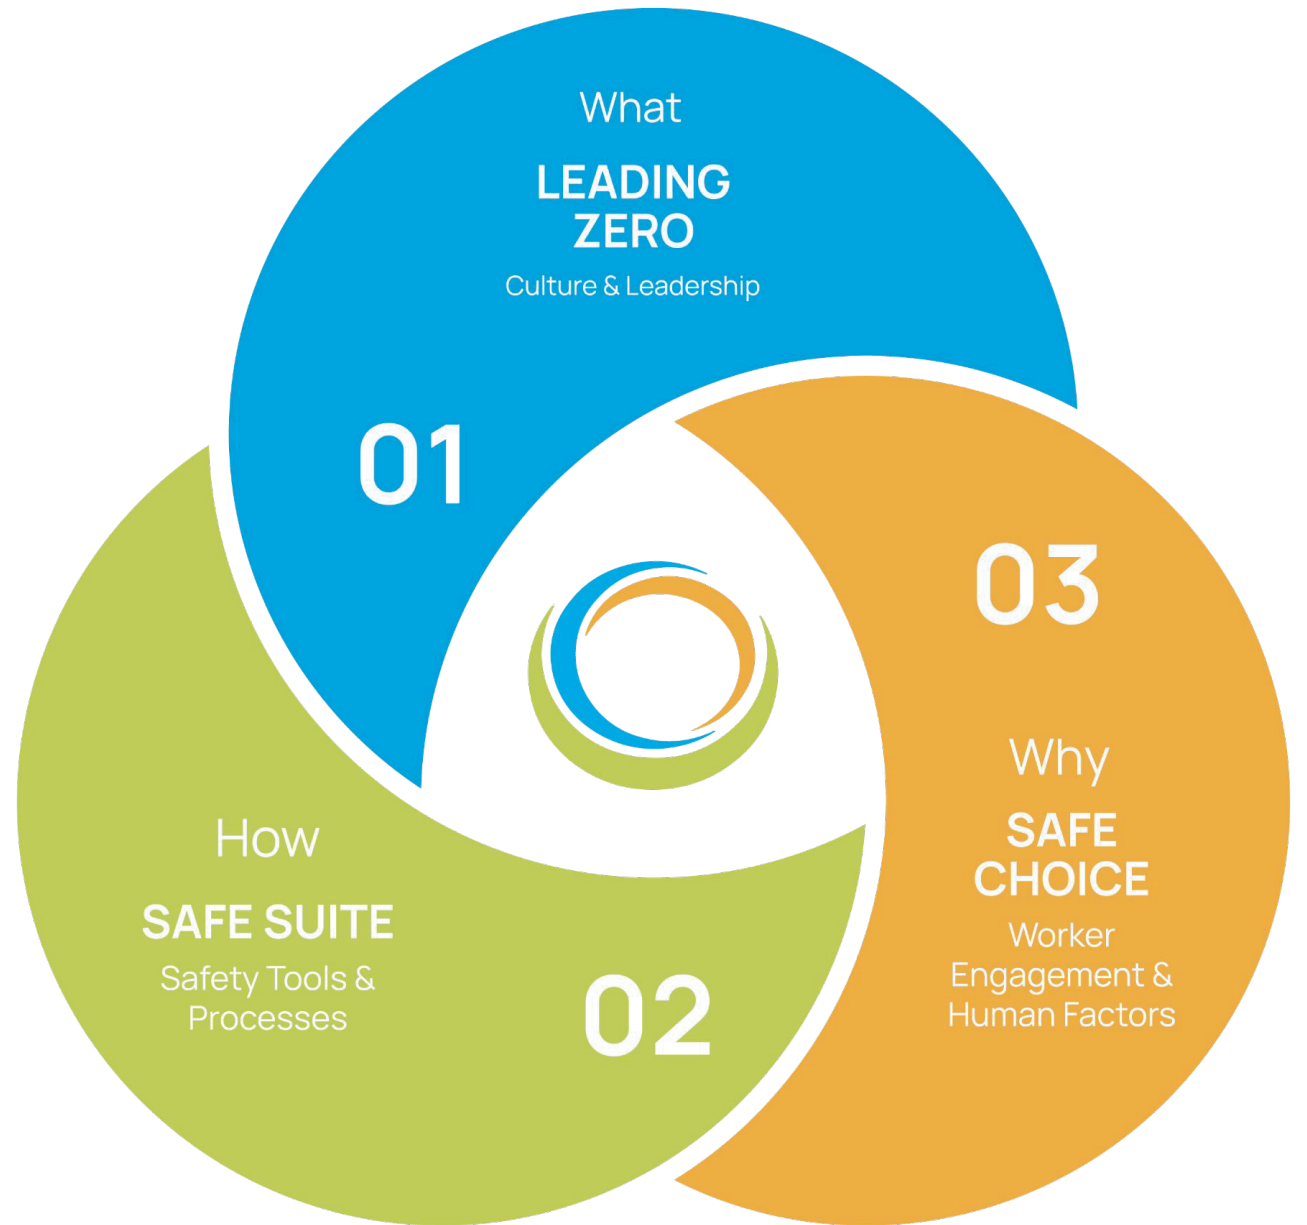

Safety Leadership

Our most valuable asset, our people.

“
Do it Safe.
Do it Once.
Do it Right.”

Robert Costelloe, HSEQ Director
Novus Technical Services

Our Capabilities

Engineering

We offer multi-discipline engineering beyond the typical EPCM offering. We collaborate with clients to develop and realize operational technology that enhances business processes, health & safety, and environmental sustainability.

Our Services Include:

- Pilot Projects
- Concept Selection
- Front-End Engineering Design
- Gate Reviews
- Multi-Discipline Detailed Engineering
- System Integration
- Field Engineering

Delivering comprehensive solutions across multiple sectors globally.

Procurement

Procurement and supply chain services and, tailored for major construction; Electrical (LV,MV,HV), Instrumentations & control, mechanical & piping and telecommunications projects . With a focus to minimize costs and risks while maximizing value to deliver on time and on budget.

Key Offerings:

- Vendor Identification
- Request for Proposal (RFP)/Tender Process
- Contract Negotiation
- Compliance and Regulation
- Supplier Management
- Warehousing and Inventory Control
- Risk Management
- Trusted Partners

Construction

Multidisciplinary construction and installation services, including fabrication and acceptance testing, for projects of all sizes.

Our Services Include:

- Self-performed installation of electrical systems, including low, medium, and high voltage power work.
- Construction and installation of instrumentation and control systems, including fire detection and gas systems.
- Construction and installation of various telecommunications subsystems for industrial and commercial applications.
- Construction and installation of mechanical and piping systems, including HVAC.
- Management of partners and subcontractors for civil and structural scopes.
- Multidisciplinary systems quality inspection and testing.

Systems Completion & CSU

Success Starts with Smart Systems Completion Planning: Begin With The End in Mind

Novus Approach:

- Early Engagement
- Lessons Learned
- Systematic Approach
- Schedule Predictability
- Cost Efficiency
- Best in Class Digital Tools
- Suite of CSU Procedures

Modular Buildings

Rigorous, pre-fabricated modular building solutions approved for heavy industrial applications:

- Communication Buildings
- E-Houses
- Control Rooms
- Data Centers

Our Services Include:

- Engineering, Design, Procurement, Construction/Assembly, Commissioning and Turnover

Digital Solutions

Our portfolio of solutions is backed by a robust ecosystem of industry-leading partners. We provide systems integration services and deliver transformative solutions, such as:

- Predictive Maintenance
- Connected Worker
- Remote Monitoring
- Autonomous Operations
- Operator Safety Systems

Core Integration Services:

- Industrial and Enterprise Networking
- Private Wireless Networks (LTE/5G)
- Cybersecurity
- Industrial Internet of Things (IIoT)
- Proof of Concepts
- Evaluation of Emerging Technologies
- Multivendor Interoperability Testing
- Performance, Availability and Security Testing

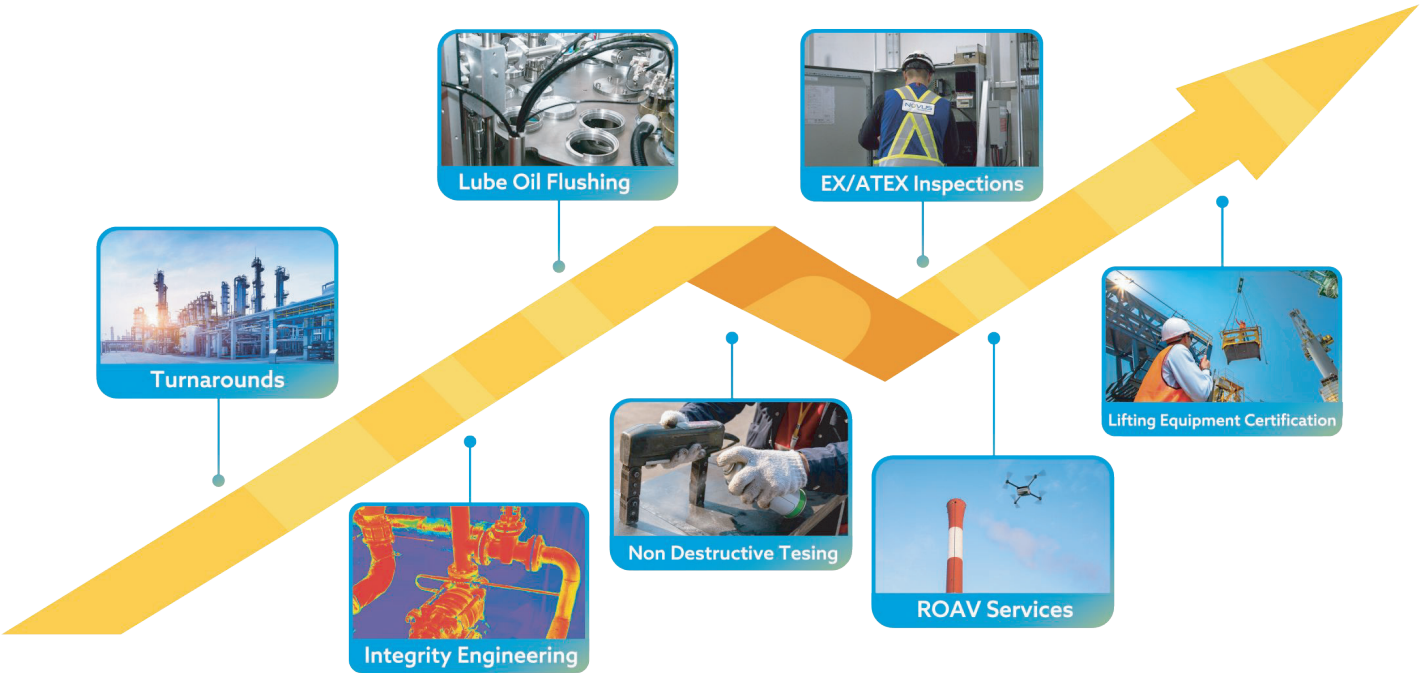

Asset Services

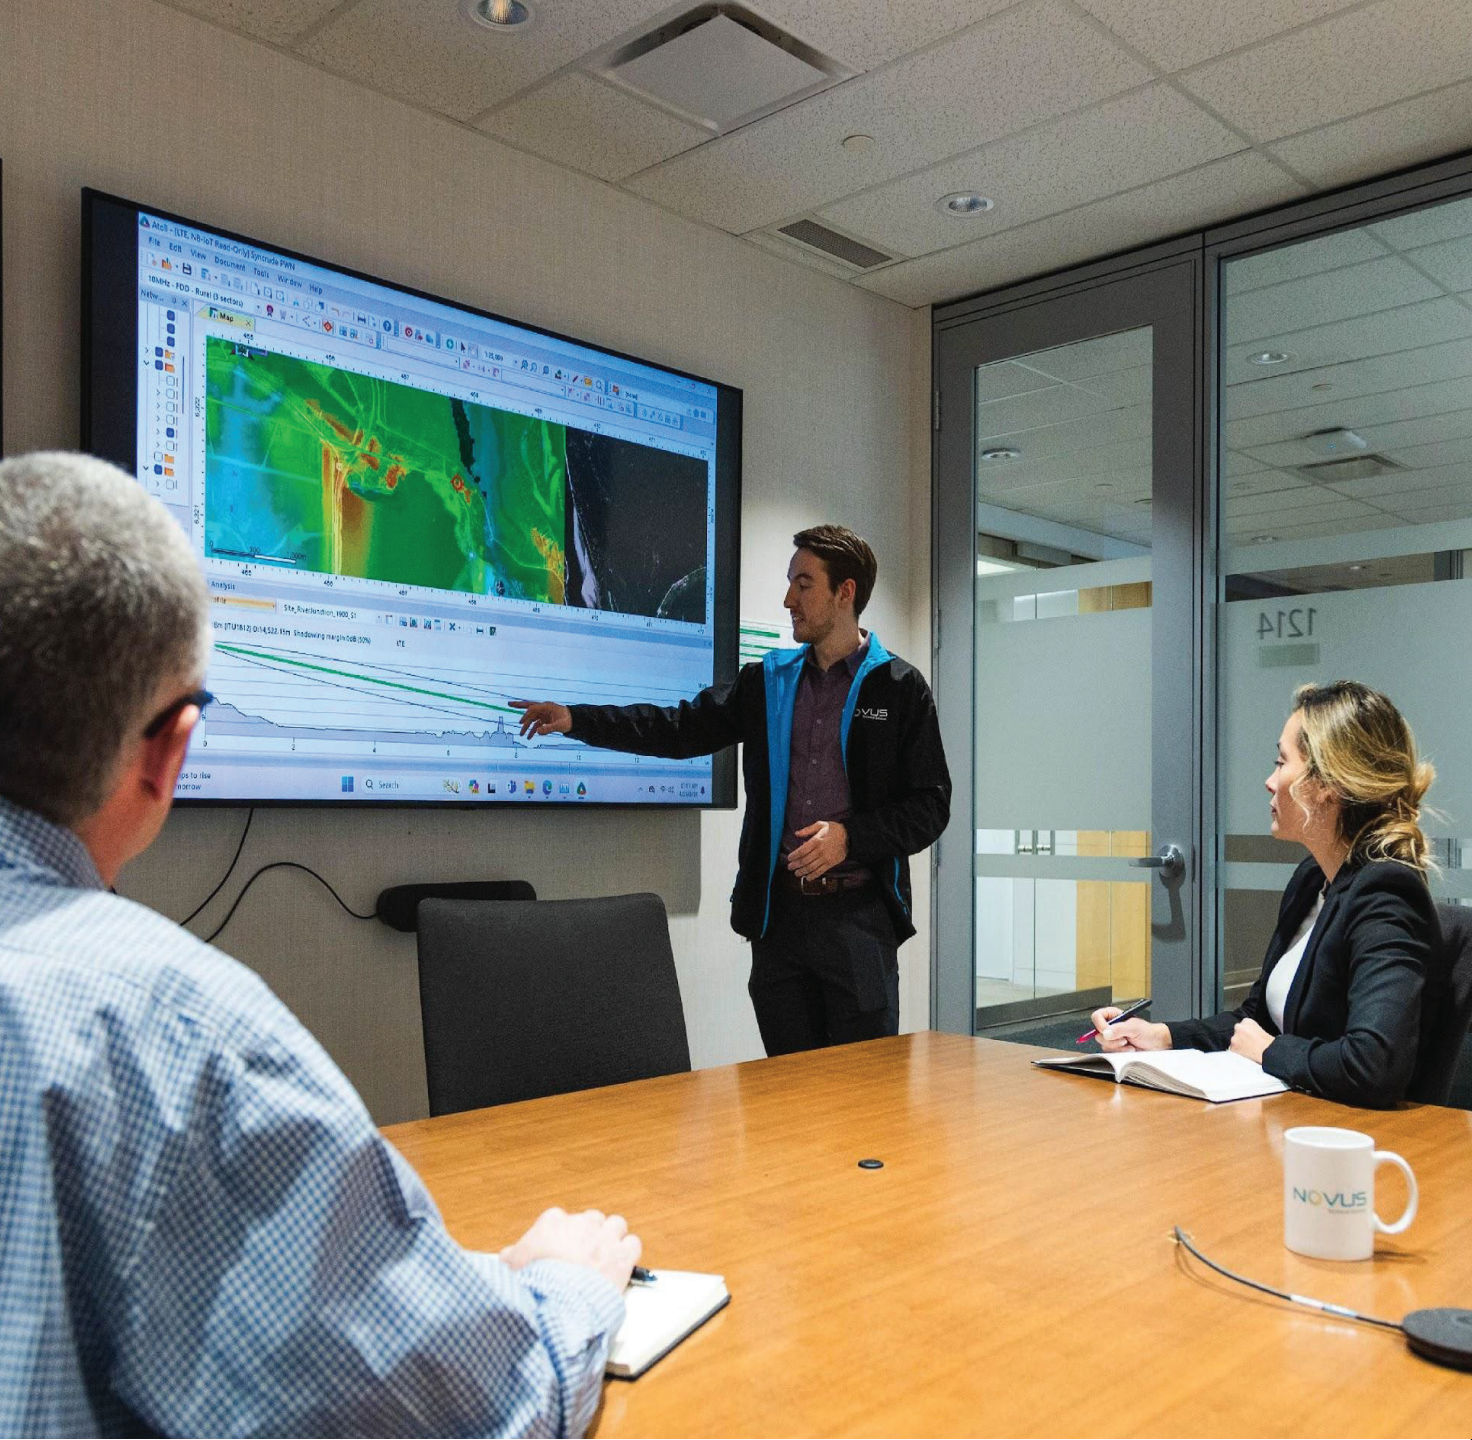

Our Comprehensive Services include:

- Structural Integrity Assessment
- Asset Management
- EX/ATEX Inspection

Key Services:

- Structural Integrity
- Materials and Metallurgy
- Corrosion Management
- Risk Based Inspection
- Lifting Equipment Inspection and Certification
- Maintenance, Modifications and Operations
- Turnarounds
- EX/ATEX Digital Tools

Project Management

Integrated resources, project tools, and systems to enhance project outcomes.

Our Services Include:

- Front-End Engineering and Design (FEED)
- Multi-Discipline Detailed Engineering
- Procurement and Supply Chain Management
- Construction and Fabrication
- Commissioning and Start-Up
- Operations and Maintenance

Contact Novus

About Novus Technical Services

Novus Technical Services is your trusted partner for the energy and related sectors. We specialize in EPC, Digital Systems Integration, Systems Completion & CSU, Modular Building Solutions, Asset Services, and Project Management worldwide. Our industry focus spans Energy, Utilities/Power, Mining to Chemical/Petrochemical, providing data-centric end-to-end solutions throughout project lifecycles. Novus redefines possibilities through innovation and sustainability at our core, ensuring that every project is delivered safely, efficiently, and with high-class quality.
